PROFILE

Motivated Computer Engineering undergraduate with strong fundamentals in programming, software development, and real-world project experience. Quick learner with hands-on experience in building full-stack applications, automation tools, and dashboards. I am actively seeking an internship to grow technical skills and contribute to impactful solutions.

EDUCATION

B.E Computer Engineering   2023 – 2027
Terna Engineering College   Mumbai India

TECHNICAL SKILLS

- Languages: Python, C, Java, SQL
- Databases: MySQL, Firebase
- Concepts: Data Structures, Algorithms, OOP
- Web Development: HTML, CSS, JavaScript, Flask, React, Node.js (MERN)
- Tools & Technologies: Git, GitHub, VS Code, Postman

PROJECTS

CtrlAI – AI SaaS Platform 🔗   01/2026 – 01/2026
Full-stack AI application with authentication, premium features, image processing, resume analysis, and community interactions. Deployed on Vercel.

AI Python based Trading BOT   11/2025 – 12/2025
Developed an AI-ML based trading bot that predicts trading risk using ML models, Python Backend and Interactive visualizations. Include automated trades placing alerts and reports

Ground Water Monitoring & Predictive Analytics System | Smart India Hackathon   09/2025 – 10/2025
2025 (Waitlist Finalist)
Developed an AI-based dashboard that predicts groundwater risk using ML models, Flask backend, and interactive JS visualizations. Includes automated alerts and reporting.

Inventory Management System   05/2025 – 07/2025
Built a stock, orders, and member management system using Python, Flask, and Firebase realtime database

The College Canteen   02/2025 – 04/2025
Built a food ordering application using React and Node.js with Firebase backend integration.

Minion Talk   04/2025 – 06/2025
Created a fun web app using HTML, CSS, and JavaScript that converts English input into Minion language using Fun Translations API.
